

Stronger relationships + more supportive teams = better teachers

teaming the teachers

At Challenge Discovery, we realized some years ago that teachers have a lot to teach each other as well as their students. That's why we created Teaming the Teachers to facilitate the process of teachers sharing their wealth of experience, information and teaching ideas with each other.

A teacher can never really teach unless he is still learning himself. A lamp can never light another lamp unless it continues to burn its own flame.

During Teaming the Teachers, our facilitators come to your school and lead your team through a sequence of events, either indoors or outdoors. The activities give participants the opportunity to learn about each other, to work together as they problem-solve, and to lay a foundation for supporting one another throughout the school year. Our programs have a proven history of bringing teachers together to create an even more inclusive and cohesive school environment. By the end of the program, your group will be well on its way to working more effectively as a true team.
