

# Common Ground

1

The Common Ground program **promotes diversity, respect, empathy and building meaningful relationships** through inclusive activities and reflection. The problem-solving initiatives presented require clear communication, social engagement and effective teamwork. Through carefully timed "interventions" and debriefs, participants are reminded to be mindful of how they are influencing the group process.

*"Challenge Discovery gave our boys the opportunity they needed to be active while being very much intentional and purposeful. The facilitators did an excellent job helping the boys reflect on how their behavior was affecting their progress."*

Challenge Discovery's philosophy has always been based on character development in an effort to develop relationships, teamwork and confidence. As researchers increasingly link cognitive skills to success in education, we are now integrating the five **Social and Emotional Learning (SEL) competencies** into each of our three programs. Each program emphasizes specific strengths and focuses on certain competencies of the model described in more detail on page 2.

# Common Ground

The social and emotional learning (SEL) integrated framework enhances students' capacity to integrate skills, attitudes, and behaviors to deal effectively and ethically with daily tasks and challenges. While all five competencies are included in the Common Ground program, we bring specific focus to the two that promote **interpersonal competence**.
